# Creating sustainable change in organisations: methods and consulting options

**FOR SALES TEAMS  
AND THEIR LEADERS**

# PROVEN METHODS

## Active participation

- We help you get on the same page of the problem. We invite the whole organisation to participate in focussed surveys and solve issues in multi-team workshops.

## Bottleneck & pattern identification

- We help you find happiness and fix bottlenecks quicker. We provide an external perspective and suggest small changes in your processes that create a big impact.

## Data-driven prioritisation

- We help you focus on what needs done. We improve your maturity gradually and ensure revenue streams prioritise how you manage partnerships, teams, and customers.

*"First understand,  
then be understood."*

# BESPOKE CONSULTING

## WE THRIVE TO INSPIRE, CHALLENGE AND IMPROVE YOUR ORGANISATION

Are you looking to enter new markets, either organically or through acquisition? Are you, too, finding it hard to create 'time and space to think'? Our signature workshops are based on **empathy, collaboration and open discussion**. Our virtual environment is specifically developed for **structured, results-oriented yet creative brainstorming** where all individuals flourish.

Have you experienced **organisational fuzziness** that allows customers to make their own choices and buying decisions? But you're not seeing the changes in your organisation that can support that, **fast enough**?

We help you **find and fix bottlenecks** that slow you down, and **identify good patterns** that can be replicated across your organisation.

*Future = Improved  
results? - You decide.*
